ACHIEVIA

PRIVACY POLICY

Medical Technology Licensure Examination Review Platform

Version dated 28 October 2026 • Effective upon publication in the ACHIEVIA application

We respect your privacy. This Privacy Policy explains how ACHIEVIA collects, uses, stores, shares and protects personal data when you use its Android or iOS review application, account services, in-app purchases, leaderboards or informational website at **achieviareview.com**. It also explains your rights under Philippine data protection laws.

> YOUR PRIVACY AT A GLANCE
>
> **In-app visibility:** An eligible learner's registered full name and ranking are visible to other ACHIEVIA users inside the App only. **Subscriptions:** Expiry does not, by itself, erase saved study records or separately purchased Mother Notes access. **Account archiving:** Archiving is the routine approach, but it does not override lawful requests for erasure, blocking or other rights.

DATA CATEGORY	EXAMPLES	MAIN USE
Registration	Name, date of birth, email, school, general location	Create and manage accounts
Learning activity	Answers, scores, study time, streaks, progress	Deliver review tools and rankings
Purchases	Plan, entitlement, receipt, payment status	Activate and support paid access
Security and support	Sign-in events, device or network logs, inquiries	Protect accounts and resolve problems

01 About ACHIEVIA and This Notice

"ACHIEVIA," "we," "us" and "our" refer to the operator of the ACHIEVIA educational review service. ACHIEVIA determines the purposes and means of processing personal data relating to its own account and learning services and acts as a personal information controller under applicable Philippine law. Privacy inquiries and requests for details about the responsible controller or its authorized representative may be directed to **achieviaph@gmail.com**.

ACHIEVIA currently focuses on the Philippine Medical Technologists Licensure Examination (MTLE) and is intended for users in the Philippines. The website, **achieviareview.com**, provides general information about the App only. Account registration, review features, subscriptions, Mother Notes purchases and checkout are available only in the Android and iOS applications ("App"). This Policy should be read with the ACHIEVIA Terms of Service.

02 Information You Provide at Registration

When you create an account, we request your **genuine full name, date of birth, email address, school or educational institution, and general residential location** consisting of barangay, city or municipality, and province. A house number, street address and ZIP code are not required for normal registration.

We also process information you voluntarily provide in support messages, refund or access inquiries, account corrections and privacy requests. If you sign up with an identity provider, the information supplied to ACHIEVIA may differ according to your provider settings. You should keep your registration information accurate and up to date.

03 Learning, Usage and Account Information

We process your activity within the App, such as practice answers, completed quizzes, mock examination results, scores, review history, subject progress, study duration, streaks, leaderboard position, free-trial and subscription eligibility, purchased Mother Notes entitlements, and relevant timestamps.

We may also receive limited operational information needed for performance and security, such as app version, device type, operating system, crash or error events, login attempts, approximate network information and device or session identifiers. The information actually available depends on the App features and technical services implemented.

04 Information from Sign-in and Payment Providers

If you choose Sign in with Google or Sign in with Apple, the selected provider may share your account identifier, name and email address or relay address, depending on your choices and its settings. ACHIEVIA uses that information to authenticate you and associate you with the correct ACHIEVIA account.

All subscriptions and Mother Notes purchases are made only inside the ACHIEVIA App. iOS purchases are handled through Apple In-App Purchase, and Android purchases through Google Play Billing; there is no checkout on the informational website. We receive transaction-related data such as a transaction identifier, purchased product, payment confirmation, refund status and purchase dates as needed to deliver service. The relevant app-store payment provider handles its own payment credentials under its privacy disclosures.

05 Why We Use Personal Information

ACHIEVIA uses personal information to register and authenticate accounts; activate the one-time free trial; determine purchases and subscription expiry; enable question banks and mock examinations; retain review progress; calculate study metrics and rankings; provide Mother Notes access, purchaser-name watermarks and download controls; protect intellectual property; support users; investigate suspected misuse; and maintain service availability.

We may use relevant account and usage information to debug errors, evaluate product performance, improve educational content, respond to complaints, produce internal aggregated reports, and satisfy applicable accounting, regulatory and legal obligations. We do not publish users' full registration profiles or examination histories to the open internet.

06 Lawful Bases for Processing

Depending on the data and purpose, processing may be necessary to perform our agreement with you (for example, providing an account, paid access and saved progress); to comply with legal obligations (including applicable financial records and lawful requests); or for legitimate interests that are not overridden by your rights (such as network security, fraud prevention and service improvement).

Where Philippine law requires your consent, including for optional direct marketing or certain activities beyond what is necessary to deliver the App, ACHIEVIA will seek an appropriate choice. You may withdraw consent for consent-based processing, without affecting processing previously carried out lawfully or processing supported by another valid legal basis.

07 Required Information and Your Choices

The registration fields described above are presently required for ACHIEVIA account creation. If you do not provide required information, we may be unable to register an account or provide certain services. Separate information may be required by your payment provider for a transaction.

We use school and general location information for account profile administration and appropriate operational planning. We will limit collection and use to purposes reasonably necessary for the App, and review those requirements against the principles of proportionality and data minimization.

08 Free Trials and Misuse Prevention

A five-day limited free trial begins when registration is successful and is available once per individual. ACHIEVIA may process account creation dates, trial flags and relevant anti-abuse records to apply this rule and detect repeated registrations, credential misuse or suspected account sharing.

Security and abuse indicators are reviewed in context. Users may report errors or challenge an account restriction through **achieviaph@gmail.com**, subject to reasonable identity and ownership verification.

09 Review Progress and Examinations

To provide your learning history, we store answers, assessment results, scores, progress summaries and related study metrics. These records help you resume review activities and, where applicable, compare your performance over time.

If your subscription ends, ACHIEVIA ordinarily retains the saved learning records associated with your account so that they may be accessible again when you renew. This is separate from the lifetime entitlement of Mother Notes purchasers and remains subject to lawful retention and data subject rights.

10 In-App Leaderboards and Full Names

Eligible users participate in ACHIEVIA's **in-app leaderboards**. Other ACHIEVIA users may view your **registered full name** alongside your ranking and relevant study achievements, such as streaks or study time. The leaderboard is intended to be visible within the App only, not on an open public website or ACHIEVIA social media pages.

Participation is part of the currently planned leaderboard feature rather than a separate opt-in setting. We explain this visibility before registration and will assess privacy concerns, objections and any applicable additional safeguards, particularly those involving minors, in accordance with Philippine law. Private details such as birth date, email, school and home location are not intended to appear in leaderboard listings.

11 Mother Notes and Personalized Watermarks

When you buy Mother Notes, we associate the purchase with your account. Downloadable PDFs include your purchaser name as a personalized watermark and may use encryption or similar document protections. This identifies the authorized purchaser and helps deter unlawful redistribution.

Users may retain or print legitimately downloaded copies for personal study under the Terms of Service. If an account is terminated for a serious violation, previously downloaded files may remain usable, but future downloads and updates through the terminated account are not provided. Watermarks should not be removed, altered or shared.

12 Purchases, Receipts and Refund Requests

We process purchase details, product entitlements, payment status, transaction timestamps and related support records to recognize paid access, investigate failed or duplicate transactions, administer refunds on a case-by-case basis, and maintain records required by law.

Apple and Google may act as separate parties responsible for their own in-app payment processing and fraud checks. Their privacy notices and terms apply to information you submit directly to them. ACHIEVIA does not take purchases or payment details through its informational website. Do not email full payment card numbers or confidential payment credentials to ACHIEVIA support.

13 Website, Cookies and Similar Technologies

Our website, **achieviareview.com**, provides general information about ACHIEVIA and its App features. It does not offer user account registration, app subscriptions, Mother Notes purchases or payment checkout. Limited technical data, such as website requests, browser information and security logs, may be processed to display the informational pages, keep the site functioning and prevent abuse.

If optional analytics, tracking technologies, marketing cookies or third-party embeds are introduced, ACHIEVIA will provide the disclosures and choices required by applicable law. Non-essential processing will not be justified solely by a general reference to this Privacy Policy where affirmative consent is required.

14 Service Messages and Optional Marketing

We may contact you by email or within the App about account security, purchase receipts, access restoration, policy changes, operational incidents or important service notices. These communications are related to running the service and may be necessary for your account.

If ACHIEVIA offers optional promotional email or similar direct marketing, we will use an appropriate legal basis, provide required choices and honor applicable opt-out or withdrawal requests. Refusing marketing will not, by itself, cancel your purchased educational access.

15 Who May Receive Information

Limited personal data may be shared, when reasonably necessary, with: **(1)** account sign-in and in-app payment providers, including Apple and Google; **(2)** contracted hosting, database, maintenance, fraud-prevention, email or customer-support providers; and **(3)** authorized personnel providing the App and supporting customers.

We may disclose information to regulators, law-enforcement authorities, courts or professional advisers when lawfully required or necessary to protect legal rights. In-app leaderboard names and rankings are visible to other App users as described above. We require appropriate confidentiality and data-protection safeguards from processors acting on our behalf and do not authorize unrestricted access to your personal information.

16 Processing Outside the Philippines

ACHIEVIA is intended for Philippine users, but some technology and payment providers may operate systems or personnel in other countries. Accordingly, personal data may be transferred to, accessed in or stored outside the Philippines when needed to provide the App and its integrations.

Where cross-border processing occurs, ACHIEVIA will use appropriate contractual, organizational and technical safeguards, take account of the recipient's role and comply with applicable Philippine data protection requirements. For information about an individual provider's locations or practices, consult that provider's published privacy notice.

17 Information Security

We aim to apply appropriate organizational, physical and technical security safeguards based on the nature and risks of processing. These may include access limitations, authentication controls, protective network measures, security monitoring, restricted administrative permissions, backup and recovery processes, and suitable protections for data transfers and stored information.

Purchaser-watermarked and encrypted Mother Notes PDFs are anti-piracy measures; they should not be understood as a guarantee of security for all account data. No internet-based service can eliminate every risk. Keep account credentials private and promptly report suspected unauthorized use or security incidents.

18 Storage, Retention and Account Archiving

ACHIEVIA ordinarily **archives rather than immediately deletes** accounts when they are deactivated or no longer regularly used. Archived records may include account details, saved review progress, examination results, purchase entitlements, transaction history and relevant support or security records so that lawful reactivation and continuity are possible.

Archiving does **not** mean indefinite retention regardless of purpose. Personal data will be retained only for periods justified by delivering the service, legitimate and proportionate business needs, applicable recordkeeping requirements, disputes or legal claims. We will periodically reassess necessity and securely delete, de-identify, block or otherwise restrict information when required by law or when it is no longer justified.

19 Archived Accounts, Reactivation and Subscription Expiry

Where eligible and still lawful to retain the data, users who reactivate an archived account can recover previously saved learning information, historical purchases and separately purchased Mother Notes entitlement. Expired subscriptions remain expired and require a new purchase.

If you request account closure or permanent removal of personal information, we will evaluate the request under the Data Privacy Act rather than treating routine archiving as an absolute reason to refuse. Certain records may need to be retained for lawful payment, tax, fraud, dispute or security purposes, with access restricted as appropriate.

20 Your Rights Under Philippine Law

Subject to the applicable legal conditions and exceptions, you may have rights to **be informed** about processing; **access** your personal data; **object** to certain processing; **correct** inaccurate or incomplete information; request **erasure or blocking**; seek **data portability** where applicable; **withdraw consent** for consent-based activities; and request redress or damages as permitted by law.

You also have the right to lodge a complaint with the **National Privacy Commission (NPC)**. ACHIEVIA will not characterize all archiving, mandatory leaderboard participation or contract terms as overriding rights that cannot lawfully be waived.

21 How to Make a Privacy Request

Send your request to **achieviaph@gmail.com** with the subject **Privacy Request - ACHIEVIA**. Explain whether you want to access, correct, object to, restrict, port or erase data, and provide the email address connected with your account. Please avoid sending unnecessary sensitive documents.

We may ask for proportionate proof of account ownership to protect your information from unauthorized disclosure. We will review each request and respond within the time and manner required by applicable law, explaining any lawful restriction, retention requirement or available next step.

22 Children and Users Under 18

ACHIEVIA does not impose an additional universal minimum registration age beyond applicable law. For minors, a parent or legal guardian should participate or give legally required consent, especially for purchases and personal-data processing when required. Families should consider the visibility of a minor's **registered full name** on in-app leaderboards before registration.

Where laws require consent, verification or additional safeguards, we will apply those requirements. Parents or legal guardians may contact **achieviaph@gmail.com** regarding a child's personal data or to exercise rights on the child's behalf where legally authorized.

23 Data Incidents and Breach Notification

We will investigate suspected security incidents, take reasonable containment and recovery steps, and assess whether an incident meets the criteria for notifying affected users or the National Privacy Commission. Where notification is legally required, we will follow applicable procedures and deadlines, including the relevant 72-hour reporting requirements.

We may use your registered email address or another appropriate channel for incident-related notices and practical steps you can take to secure your account.

24 Changes to This Privacy Policy

We may update this Policy to reflect changes in App features, service providers, technology or legal obligations. Material updates will ordinarily be announced at least **7 days in advance** through email or in-app notice, unless a different period is required by law or urgent lawful circumstances justify an earlier change.

The effective or version date at the top of the document identifies the published edition. If a new processing activity requires consent or a separate notice, we will obtain or provide it as required rather than treating continued use alone as universal consent.

25 Third-Party Notices and Limits of This Policy

This Policy covers ACHIEVIA-controlled processing. Apple, Google and other third-party services linked from the App or informational website may collect and process additional information under their own privacy notices, which you should review. ACHIEVIA does not operate a payment checkout through its website. Links to independent third parties do not make ACHIEVIA responsible for processing they independently control.

Information about payment methods, device permissions, analytics, background services and available integrations may change as the App is implemented. ACHIEVIA must keep its published disclosures aligned with actual production behavior and provide updated notice where required.

26 Privacy Contact, Questions and Complaints

For privacy inquiries, rights requests, account information concerns or reports of unauthorized disclosure, contact **achieviaph@gmail.com**. Official website: **https://achieviareview.com**. We will attempt to address your concern promptly and explain any applicable privacy request process.

You may also consult or lodge an appropriate complaint with the **National Privacy Commission of the Philippines** at **https://privacy.gov.ph**, subject to its published complaint procedures. This Policy is governed by applicable Philippine data protection law, including Republic Act No. 10173 and its implementing rules.
